FOR IMMEDIATE RELEASE

BGMU RECEIVES NATIONAL RECOGNITION FOR RELIABLE ELECTRIC OPERATIONS

(Bowling Green, KY) -- Bowling Green Municipal Utilities has earned a Reliable Public Power Provider (RP3)[®] designation from the American Public Power Association for providing reliable and safe electric service.

The (RP3)[®] designation, which lasts for three years, recognizes public power utilities that demonstrate proficiency in four key disciplines: reliability, safety, workforce development and system improvement. Criteria include sound business practices and a utility-wide commitment to safe and reliable delivery of electricity. BGMU joins more than 271 public power utilities nationwide that hold the (RP3)[®] designation.

“We are honored to be included in the role of (RP3)[®] – designated utilities,” said Mark Iverson, General Manager of BGMU. “BGMU has held an (RP3)[®] designation since the program’s inception, and I believe it is a reflection of the hard work our employees perform every day to provide our customers with safe and reliable electric service. We are committed to continuing to look for ways to improve our operations and service to our customers.”

The American Public Power Association has offered the (RP3)[®] designation for 18 years now. The Association is the voice of not-for-profit, community-owned utilities that power 49 million people in 2,000 towns and cities nationwide. The Association advocates and advises on electricity policy, technology, trends, training and operations.
