

ELECTRIC RATES – September 2023

*A standard service charge is assessed on all accounts. Amounts vary by Rate Schedule.

*Energy Charges are applied to kilowatt hours and vary based on season. Summer months are June through September. Winter months are December through March, and transitional months are October, November, April, and May.

*The Fuel Cost Adjustment (FCA) is applied to kilowatt hours and varies each month. It allows TVA to recover costs associated with the dynamic price of market-based fuels and purchased energy costs.

Residential Service	
Standard Service Charge	\$18.81
Energy Charge (per kWh)	.06999
Fuel Cost Adjustment (per kWh)	.02267

General Power Service Part 1 (GSA1)	
Standard Service Charge	\$20.41
Energy Charge (per kWh)	.08586
Fuel Cost Adjustment (per kWh)	.02240
