FOR IMMEDIATE RELEASE

BGMU Earns Tree Line USA Recognition from Arbor Day Foundation

(Bowling Green, Ky.) The Arbor Day Foundation recognized Bowling Green Municipal Utilities as a 2025 Tree Line USA utility for its commitment to balancing the delivery of reliable electricity with the preservation of urban forests and the profound layers of benefits trees provide communities. This is BGMU's 18th consecutive year receiving this designation.

The Arbor Day Foundation is a global nonprofit with a mission to inspire people to plant, nurture and celebrate trees. Its network of more than a million supporters and partners has helped the organization plant more than 500 million trees in forests and communities across more than 60 countries since 1972. The Tree Line USA program recognizes service providers that maintain a high standard of care when planting or maintaining trees on the job.

"BGMU recognizes that a healthy, vibrant urban forest enhances the quality of life in our community," said Mark Iverson, General Manager of BGMU. "At the same time, we understand that trees can sometimes conflict with the need for reliable electric power. We appreciate the opportunity to work with the Arbor Day Foundation to develop and follow best practices in quality tree care."

To qualify as a Tree Line USA, utilities must uphold five core principles including following industry standards for quality tree care, providing annual worker training in best tree care practices, sponsoring a tree planting and public education program, maintaining a tree-based energy conservation program and participating in an Arbor Day celebration. The Arbor Day Foundation's Tree Line USA program is operated in partnership with the National Association of State Foresters.
